

To the Local Municipality,

Public Service Electric and Gas Company (PSE&G) maintains one or more electric transmission right-of-way(s) through your municipality. transmission lines on PSE&G right-of-way are essential for PSE&G to meet its commitment to provide safe, reliable and efficient electric service to consumers throughout New Jersey. Maintaining the vegetation along these transmission lines for proper tree clearance is absolutely necessary to assure:

- The continued safety of homeowners living near the transmission lines.
- The safety of PSE&G employees and contractors working on the power lines.
- The reliability of the electric utility system.

Maintenance of vegetation on right-of-way in your municipality is required at this time; please see highlighted areas on the attached map(s). A list of the nearest cross streets has also been provided. Private contractors working for PSE&G, will REMOVE ALL INCOMPATIBLE TREES within the easement and SIDE TRIM all branches originating from outside that hang over or cross onto PSE&G's easement along the electric transmission right-of-way. This work will begin on/after January 1, 2015 and will continue throughout 2015. A contractor representative will also notify your municipality and the effected property owners in your community of more specific dates for when crews will be working in your area.

If you have any questions or concerns, please telephone Public Service Electric & Gas Transmission Vegetation Management Department at 732-289-5292.

Thank you,

Richard Arnold PSE&G Vegetation Manager - Transmission Bridgewater Twp
